January 2009

Issue: 6

## New Year brings exciting changes...

The new year brings new changes to Inversellogic. We are in the process of moving our offices a few doors up from our current office in Montrose which we have called home since June of 2000. The new office will allow

for us to expand our organization to better serve our clients.

We have many new ideas for 2009 and are working to provide state-of-the-art technologies to our clients. We are in the process of planning a Tech Fair for 2009 which will concentrate on new and emerging technologies and provide classes to our clients on how to better implement the tools they have existing in their software tool set.

## In This Issue

New Year, New Office

Power Mat Charger

SanDisk Sansa Radio

Kodak Zx1 Camcorder

NetGear Digital  
Entertainer

## 2009 CES Top Picks

During the first week of each year the tech industry gets together in Las Vegas for the largest convention of the year, the International Consumer Electronics Show (CES). The show features all the top emerging

technologies from gadgets and TV's, to Smart phones and MP3 players.

The last few years as the connected home has become more and more popular tech companies have concentrated their efforts on improving their technologies for the home consumer, making it easier and easier for the average consumer to connect and organize their digital media, music, and videos in one place and stream it to each TV or speaker in the house.

Below are a few of our favorite picks from the 2009 CES.

## PowerMat

**Price:** TBD  
**Available**  
**Fall 2009**

**Features:** The PowerMat allows for users to wirelessly charge several electronics from one device, all at once! Depending on the model, you can charge between 3-6 devices concurrently while using only one power outlet.

## SanDisk Sansa Slot Radio

**Price:** \$99  
**Available in Spring 2009**

**Pros:** The SanDisk Sansa Slot Radio comes with a pre-loaded SD card with Billboard's top 1000 tracks. The songs are categorized by genre for you. You also have the option to upload your own music onto an SD chip. The Sansa also features a radio and a clip which provides

portability.

**Cons:** You cannot pause or go to previous tracks. You can only skip to next track.

## Kodak Zx1 HD Mini Camcorder

**Price:** \$149  
**Available in Spring 2009**

**Capabilities:** This weather resistant hand held camcorder has 720P HD quality resolution. It records at 60 frames per second and has a 2" viewfinder. It can record up to 10 hours with a 32GB SD card. The camcorder comes with an HDMI cable and a remote control.

## Netgear Digital Entertainer Elite

**Price: \$399**  
**Available February 2009**

Capabilities: This digital media receiver is the most compatible with all types of media. It's 500GB hard drive provides for added storage space since files can be copied over from most devices. Some features include it's ability to connect to both PCs and Macs and bring videos to an HDTV, and stream from Internet sources such as YouTube and Flickr.
